PERSONAL INTERESTS

I'm naturally curious; I love reading and exploring new topics. I find energy and focus through sports: I played basketball for many years, and for the past few years I've been practicing Brazilian Jiu-Jitsu and boxing. In my free time, I take a break from the computer to paint and cook—a passion I've worked to develop by taking various hands-on courses.

I consent to the processing of personal data contained in my curriculum vitae in accordance with Legislative Decree 196/2003, as amended by Legislative Decree 101/2018, and Article 13 of the GDPR (EU Regulation 2016/679)

PROFESSIONAL EXPERIENCES

2022 - in progress **STEM Tutor / Science Subjects**

-

Milan

For several years, I have been working as a STEM tutor in mathematics, physics, and science, supporting about ten students with diverse educational needs, including those with learning disabilities. I create customized learning plans for each student, with the goal of helping them become independent learners and achieve concrete objectives (catching up on missed material and achieving sustained improvement in academic performance). This experience has honed my ability to translate complex analytical concepts into clear and accessible solutions, as well as developed strong skills in active listening, patience, and providing constructive feedback.

HIGH SCHOOL STUDIES

ISTITUTO DI ISTRUZIONE SUPERIORE, NICCOLO' MACHIAVELLI, ITALIA, PIOLTELLO
